ASM Grant Project Statuses

CIP – This is the basic status that is needed to allow the sponsor or consultant to adjust information for the funding item.

MnDOT Review – This status is automatically generated once the 'Submit' button is selected. This status is used to move it from 'CIP' so that the sponsor can no longer make changes, but shows that MnDOT has not yet reviewed the item.

Awaiting MnDOT Funds - This status intended for state projects only for project in the current fiscal year, or upcoming fiscal year. It denotes that the project has been reviewed but funding is not currently identified in the budget for this project.

Needs FAA Programming – This is intended for federal projects only in the current fiscal year to inform the sponsor to submit programming. Once submitted, the next status should be 'Awaiting application'.

Offered – This status intended for state projects only for project in the current fiscal year, or upcoming fiscal year. It denotes that funding is identified in the budget for this project, a grant offer letter has been sent to sponsor, but intent to proceed from the sponsor has not yet been received by MnDOT .

If Sponsor proceeds with project:

Awaiting Application – Intended for both state and federal projects. Alerts sponsor that the next step in the grant process is to submit a grant request for the CIP item.

Under Grant – Active grant.

Closed – Historical grant record for a closed project. (This status is currently hidden on the CIP screen)

If Sponsor does not proceed with project:

Dropped – Sponsor has indicated that the project will not proceed as offered. The project will no longer appear on the CIP.
