

# 2019 Public Transit Grant Application

The CY 2019 Management Plan Application represents an opportunity to apply for Formula Grants for Rural Areas (Section 5311) funding, Urbanized Area Program (Section 5307) funding, and State of Minnesota funding as part of the Public Transit Participation Program. This grant program supports capital, planning and operations of transit systems in small, large urban areas, and in rural areas outside of the 7-county Twin Cities metropolitan area. This funding opportunity includes Federal Transit Administration funds awarded to the Minnesota Department of Transportation (MnDOT) Office of Transit and Active Transportation.

The Public Transit Participation Program provides financial assistance for public transit services. This includes both State of Minnesota and Federal Transit Administration (FTA) grant funding financial assistance administered by MnDOT.

## Public Data

Pursuant to Minn. Stat. §13.599

- Names and addresses of grant applicants will be public data once responses are opened.
- All remaining data in proposed responses (except trade secret data as defined and classified in §13.37) will be public data after the evaluation process is completed (for the purposes of this grant, when all grant agreements have been fully executed).

All data created or maintained by the Minnesota Department of Transportation as part of the evaluation process (except trade secret data as defined and classified in §13.37) will be public data after the evaluation process is completed (for the purposes of this grant, when a grant agreements have been fully executed).

## What Is the Application Process?

The MnDOT Office of Transit and Active Transportation (OTAT) annually solicits and awards grant funding to support the operating costs of transit systems in Greater MN. Your application will be submitted to MnDOT's Office of Transit and Active Transportation. Applications must be completed and submitted through the Black Cat system. Upon request, information is available in alternate formats by emailing [ADArequest.dot@state.mn.us](mailto:ADArequest.dot@state.mn.us).

## What is the Timeline?

**May 7, 2018** – MnDOT releases application to transit system

**July 27, 2018** – Application due from applicants to MnDOT OTAT

**September 14, 2018** – OTAT provides notification of grant award to transit systems.

## Who is Eligible to Apply?

Eligible applicants include local governments, non-profits (MN Statute 174.24), and Tribal governments. Private operators are eligible to apply for intercity funds through a separate application for this program. Aside from planning requests, all other new applicants must have a pre-award audit completed prior to application award.

To be eligible, transit systems must have a management plan and clearly describe their operating grant request in terms of “continuation funding” and “unmet needs.” The content of the management plan is based on [Minnesota Rules Chapter 8835.0260](#) and [2 CFR Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards](#).

## How Is the Award Determined?

Awards are determined based on allocation priorities, and the factors for determining financial assistance as established in Admin Rules 8835.0270. MnDOT evaluates the budget, service delivery and design, and administration of a public transit system. All applicants are required to contribute local share in accordance with state law and federal regulations.

## When is this Application Due?

**Applications are due July 27, 2018**, and must be completed and submitted through the Black Cat system. See instructions on the following pages. Upon request, information is available in alternate formats by emailing [ADArequest.dot@state.mn.us](mailto:ADArequest.dot@state.mn.us).

## How are Public Transit Systems Notified about their Grants?

MnDOT anticipates provide notification of grant awards to transit systems via email on September 14, 2018. Award information may also be published on the MnDOT website after the evaluation process is completed.

# Submitting Application in the BlackCat Grant Management System

All applications must be submitted through BlackCat. To begin, sign in to your account and click on the [Organizations](#) tab. This will open up the [Organization Overview](#) screen. Click on the [Edit](#) button.

The screenshot shows the 'Organization Overview' page in the BlackCat Grant Management System. At the top, there is a navigation bar with tabs for Dashboard, Projects, Organizations (selected), Applications, Resources, Reports, Review, Contracts, and Grants. Below the navigation bar is a breadcrumb trail: Dashboard > Organizations > Organization Details. On the left side, there is a vertical menu with buttons for Organization Overview (selected), Manage Users, Service Levels, Title VI Civil Rights, Coordination Activities, Calendar, Contacts, Vehicles, Contract Management, Reporting, and Certification. The main content area is titled 'Organization Overview' and contains a section for 'Organization Information' for 'Watonwan County'. The information includes the address: 1304 - 7th Avenue South, St James MN 56081; contact numbers: Main: (507) 375-7385 Ext. and Fax: (507) 375-1301; email: marjorie.smith@co.watonwan.mn.us; and website: www.co.watonwan.mn.us. An 'Edit' button is located below the contact information.

This will open the *Organization Details* screen. This collects *Organization Details, Mailing Address and Legislative Districts*. Review and update information as necessary. It is critical these identifiers are correct. Without this information, a grant contract cannot be executed.

The DUNS (Data Universal Numbering System) number is a nine-digit number issued by Dun & Bradstreet (D&B). This number is assigned to each business location in the D&B database having a unique, separate, and distinct operation for the purpose of identifying them. The DUNS number supplements other identifiers, such as the EIN, and is required whether the application is made electronically or on paper. Your DUNS number is tied to your 9-digit zip code. Be sure to enter a 9 digit zip code to in the fields listed.

The SWIFT Vendor ID relates to the State of Minnesota accounting system. Without this information, no payments can be issued. The SWIFT Location ID signifies which account payments are to be made. If you need to update your Vendor Id or Location Id, please email Charles Morris.

Next, click on the *Service Levels* menu option. The service levels reflect your current your current service. Review your list of service segments and contact your MNDOT Transit Manager if you need to alter the service segments or are proposing new or unmet service.

In reviewing or adding service segments, pay special attention to the number of *passenger trips* and the *passenger fare*. If there is more than one fare, or if there are various surcharges or discounts to the fare structure, calculate an *average passenger fare* and enter it into the box. You should also include average contract revenues for routes as appropriate. A calculation of trips and fares equals the average passenger revenue amount for the route.

The average *cost per hour* is calculated by creating the service level report. Near the top of the report, enter the rate per hour to calculate operating cost per route. Compare the total operating cost, now found on the service level tab, to the total operating cost as entered in your budget.

contacts who will be responsible for signing contracts, directing the transit system, and Authorized Agents. This will be important. The Contract Management Tab drop down menus are contingent on the contacts listed here.

Next, click **Contract Management** in menu to the left. Review and modify as needed. Accuracy is important in completing this step! It is critical that the **TITLES** of the Authorized Contract Signers, and Authorized Agent are accurate. If the titles do not match the submitted resolution, the contract cannot be executed.

**Contract Management Info**  
**Section 1. Authorized Contract Signers.** The drop down menu gives options for only “AND” and only “OR”. “And” requires that both persons must sign the contract or amendment. “Or” requires that either person may sign the contract of amendment.

**Title No. 1:** Using the drop down menu, enter the name of the person who is authorized to execute the contract. The title must match the title specified on the Resolution of the Governing Board.

**Title No. 2:** Using the drop down menu, enter the name of the person who is authorized to execute the contract from the drop down menu. The title must exactly match the title noted on the Resolution of the Governing Board.

**Section 3. Authorized Agent** You are required to select an Authorized Agent for your agency. Using the drop down menu, select the name of the authorized agent. If the Authorized Agent name does not appear, return to the Contacts button, open the form and insert the name of the agent. Review for accuracy and modify as required.

**Section 3. Authorized RFF Submitters** You are required to select Authorized Request For Funds (RFF) Submitters for your agency by selecting the name of the individual from your list of contacts in the drop down list. If the Authorized RFF Submitters names do not appear on the list, return to the Contacts button, open the form and insert the name of the submitter. Review for accuracy and modify as required.

Next, click **Certification** in menu to the left.

If your transit system is certified as a Special Transportation Services (STS) operator under Minnesota Statute §174.30, enter your certificate number and expiration date in the **Certifications and Expirations** section. If you are NOT certified, check the **EXEMPT** box.

Enter your state Work Certificate, formerly known as the Human Rights Certificate, expiration date. If you are NOT required to file a certification,

check the **EXEMPT** box. The Work Force Certificate does not apply to public entities such as cities, counties, joint powers boards (JPBs), and school districts. The Work Force Certificate is good for four years. Detailed information for those required to obtain a Work Force Certificate is found in the **Resources** tab, in the menu under **Global Resources**.

An Affirmative Action Form is required of all subrecipients who are required to submit a Human Rights Certification. The Affirmative Action Form is a self-certification that is filed annually with the Management Plan Application. MnDOT is responsible for determining there is a valid Affirmative Action form on file. A copy of the instructions for completing the form and the form itself are in both .pdf and .docx format under the **Resources** tab, **Global Resources** menu option. This form should be uploaded under the **Certifications and Org Chart Upload**.

**FTA Certifications and Assurances** do not always coincide with the submission of your application and the execution of your contract. You will be notified when to download, review, sign and resubmit the documents.

Under Minnesota Rules Chapter 8835.0260 you are required to submit “a description of the organizational structure established to direct, control, review and implement the management plan.” In order to comply with the requirement, upload a copy of the agency **Organization Chart** that clearly delineates the chain of command under the **Certifications and Org Chart Upload**. You must enter the active date of the document.

Your current insurance certificate, which must name MNDOT as an additional insured, need to be scanned and uploaded under the **Certifications and Org Chart Upload**. If your insurance certificate expires in the middle of the contract period, scan and upload the new certificate when you receive it.

**Certification of Data** is completed by the person who is responsible for preparing the application. Enter the year for which you are applying for funding, click the attestation box and click **Save**.

**Certification of Data**

2014  I attest and certify that I have reviewed all of the information listed and contained within the Organization section that relates to my organization. I further attest that I have edited, uploaded, or provided all of the required or requested information on behalf of my organization to the best of my ability.

Federal Funding Accountability and Transparency Act (FFATA) Certification is required of all recipients of federal funds and must be done annually. FFATA of 2006 required OMB to create a searchable, no-cost, publicly accessible website (<https://www.usaspending.gov/Pages/default.aspx>) for each Federal award of \$25,000 or more that includes basic information about the recipient and the project being funded.

Then, click on the **Applications** tab to open the *Grant Opportunity* screen. #### Resolution

Your resolution must be submitted on your organization's letterhead or other document that indicates its official status. The authorization for execution must match the position titles of the persons named in the under the **Contract Management** menu option under the **Organizations** tab. Once completed upload to **Resolution Documents Section**.

#### Cover Letter

You are required to submit a General Budget Narrative as stated in Minnesota Rules Chapter 8835.0260 subp. 2 C (1). You will need to provide written justification in the cover letter (or as an attachment) on why your budget is as you have presented.

#### Driver Selection and Training Policies

The purpose of the document is to describe driver hiring and training requirements in conformance with Minnesota Rules. The training and retention of other safety sensitive personnel is also addressed.

#### Fare Structure

The purpose of the document is to describe in general terms the base fares from which your annual revenues are calculated. Many transit systems operate in more than county or city and there may be variations in fares. Report the average fares.

Should you make a change in your fares during the grant period such as raising or lowering fares or introducing a new type of fare media, notify your Transit Project Manager, download the form, make the changes, update the Last Updated/Reviewed and upload.

#### Internal Controls

The purpose of the document is for you to describe the internal controls policy to ensure the integrity of the funds received and to ensure that they are properly credited to the transit system. A well-documented process assists the transit system in properly identifying discrepancies and making corrections.

#### Marketing Activities

The purpose of the document is to give a general overview of the type of activities that are used to promote transit usage in the system's service area. Marketing may include market research, direct marketing to a specific niche or general promotional activities. Samples of your marketing materials should be included with the Marketing Activities form so that they can be uploaded as one document. All the materials in the Marketing Activities section should be in the .pdf format.

#### Revenue and Expense Contracts

The purpose of the revenue and expense contract document is to catalog the formal relationship the transit system has with outside purchasers and vendors. Any agreement that results in the payment or receipt of a negotiated fee should be documented on the form. MnDOT requires grant recipients to list all revenue and expense contracts and have them available for inspection upon request.

#### Third Party Operating Contracts

A .pdf version of the active Third Party Operating Contracts is required to be uploaded each application period. Use your Transit Project Manager approval letter/e-mail as a cover sheet before scanning and uploading.

#### Vehicle Maintenance Plan

The vehicle maintenance plan demonstrates that the rolling stock assets of the transit system are systematically maintained in accordance with the manufacturers' specifications. The downloaded form allows you to provide a summary of your program. It is not necessary to reproduce the entire maintenance plan. However, transit systems are expected to have on hand, and available for inspection, a detailed maintenance plan for each type of vehicle operated by the transit system. This requirement applies to all vehicles regardless of funding source.

#### Public Transit Volunteer Program

The purpose of the Public Transit Volunteer Program document is to describe the conditions under which public transit service may be delivered by volunteers. A volunteer program administered by the public transit system, but not supported with federal or state funds is not to be included. A new form must be completed each year.

#### Passenger Demographics

#### Measurable Objectives

Minnesota Rules §8835.0260, Section J, requires that transit operators who apply for assistance through the Public Transit Assistance Program provide “a description of measurable goals and objectives for the transit system, illustrating the benefits expected to be realized by the investment of state financial assistance.”

These measures should be meaningful and reasonably achievable. The measures do not have to be system-wide and may focus on one small element of your transit operation. For example, you may wish to increase ridership on a single route or service segment. Pick one or two routes or service segments on which to concentrate your efforts. Your weaker routes are the best candidates.

**Measurable Objectives**

Description of Measurable Objective	To be accomplished by	CY2015 Actual	CY2016 Projected	CY2017 Proposed
Increase ridership on Campus Connector by 20% over 2015 levels by intense marketing to incoming students through social media.	12/31/17	6.8 passengers per hour	6.3 passengers per hour	8.4 passengers per hour

You may have more than three measurable objectives. Feel free to add additional lines as appropriate. Describe the objective you are developing in the appropriate cell. This includes the methods you will use to achieve success in the objective.

Enter the actual number for CY 2016, a year to date number for CY 2017, your estimate for CY 2018.

Upload your approved Facility Maintenance Plan in the [Additional Documents](#) section at the bottom of the [Grant Opportunity](#) screen.

Click on the [Projects](#) tab. Click on [Project Plans](#). Open your 10 year Capital Project Plan. The fields are already populated from CY 2018 to CY 2026. You will need to add whatever is necessary to CY 2027. To fill in the appropriate numbers for CY 2027 click the **Add New** button. Select the year you are requesting the project. In **Project Details**, click the FTA Line Item code **Look up**. Select the appropriate code, scroll to the bottom, and hit select code. The FTA line item code box and the description will be filled. The description box is editable. Please make a note in the description section that would further identify the project. Approved items in the CY 2018 capital budget will require an additional project to be added to the annual management plan application for the upcoming year.

The *annual operating cost* for each route will automatically calculate. If the *Service Level Report* does not show *revenue per passenger* figures you must select each service segment and enter an average passenger fare. Click and save for the *revenue per passenger* amount to appear.

Compare the total *annual operating cost* to your total proposed Expense Budget. A variance up to 5% is not significant. However, if the Service Level Report shows costs much higher than that compared to the budget you will need to review your individual service segments.

This represents the completion of your Annual Management Plan application.
